## TITLE INDEX TO VOLUME 17

---

- |  |   |
|--|---|
| And-Or Parallelism on Shared-Memory Multiproces-<br>sors, 59               | Non-Monotonic Reasoning with Logic Programming,<br>227  |
| Circumscribing Embedded Implications (Without Strat-<br>ifications), 323   | Overview of Nonmonotonic Reasoning and Logic Pro-<br>gramming, An, 95                         |
| Commonsense Axiomatizations for Logic Programs, 161                        | Proof Method of Partial Correctness and Weak Com-<br>pleteness for Normal Logic Programs, 265 |
| Family of Stable Models, The, 197  | Representing Action and Change by Logic Programs,<br>301                                      |
| Goal-Oriented Approach to Computing the Well-<br>Founded Semantics, A, 279 | Success and Failure for Hereditary Harrop Formulae, 1   |
| Lower Bounds for the Lengths of Refutations, 31                            | Survey of Complexity Results for Non-monotonic Log-<br>ics, A, 127                            |
